

SUMMARY

Full-stack developer with expertise in frontend engineering and UI/UX design. Skilled in creating responsive web applications and interactive user interfaces using modern web technologies. Proficient in utilizing AI-assisted tools to improve development efficiency and deliver high-quality solutions.

EXPERIENCE

Zyvoxa - Software Engineering Intern

06/2026 - 07/2026

- Developed billing software integrating PostgreSQL database for PosBilling system, enhancing transaction processing capabilities.
- Assisted implementation teams throughout development, testing and system acceptance phases.
- Contributed to engineering teams focused on cloud infrastructure, systems programming and operating system feature development.
- Offered adaptive coding support, using working knowledge of Javascript, Swift, Python and SQL.

ZUNTRA Digital - Full Stack Intern

11/2025 - 12/2025

- Contributed to development of scalable, user-friendly interfaces, enhancing overall application usability
- Developed frontend components to improve UI responsiveness for better user experience
- Coordinated project management tasks, tracking progress and collaborating with team members to ensure timely project completion.
- Observed office staff activities to learn work flow processes.
- Maintained organised and updated file systems for easy staff use.

Retech Solutions Pvt. Ltd. - UI/UX Design Intern

06/2025 - 07/2025

- Designed UI/UX concept for Swiggy Delivery App using Figma, enhancing user engagement
- Presented creative design work, incorporated constructive feedback, and iterated designs to achieve project objectives.
- Engaged with clients during project briefings and presentations to clarify design concepts and ensure alignment with project goals.
- Consulted with clients to identify project limitations and constraints, informing design decisions and enhancing project feasibility.

ACTIVITIES

- Got shortlisted and Participated in govt EDII Hackathon
- Active IEEE member contributing to technical projects
- Collaborated in team-based software development environments

EDUCATION

05/2026

St. Joseph Institute of Technology

Chennai

B.E.: Computer Science and Engineering

PROJECTS

- **DevBeez – Developer Community Platform:** Built a responsive web platform for developers with an intuitive UI, community features, and seamless navigation.
- **LegalMeet – Legal Assistance Platform:** Designed and developed a responsive legal services platform with lawyer discovery, consultation booking, and an intuitive user interface.
- **SJIT Quiz – Web Application:** Developed an interactive quiz application using HTML, CSS, and JavaScript with dynamic question handling and score evaluation.
- **ZyVoxa Smart POS Billing System:** Developed a full-stack POS application using React, Vite, Node.js, Express.js, and PostgreSQL featuring secure authentication, GST billing, inventory management, sales analytics, barcode-based billing, customer and supplier management, and role-based access control.

SKILLS

- Python and Java
- C
- JavaScript, HTML, and CSS
- React.js and Node.js
- Version control with Git and GitHub
- Frontend development and responsive design
- User interface principles
- RESTful API development
- Agile methodologies
- User experience design

CERTIFICATIONS

- Meta Front-End Developer, Professional Certificate, 2026, Covers React, HTML/CSS, UI/UX design, and frontend development concepts
- Google Certified: Git and GitHub, 2026, Version control, branching strategies, and collaborative workflows using Git
- Infosys Springboard - MERN Stack, 2025, Full-stack fundamentals including React and Node.js concepts
